SECTION D - OTHER QUESTIONS

D.1 Other information on the impact of imports

Is there any more information you can provide on the effects of the imports of the product in question from the People's Republic of China on your business that you feel has a bearing on the present investigation e.g. did your business experience any loss of customers, market segments, etc. or experienced difficulties in obtaining finance due to those imports? Can you give examples?

D.2 Price comparison with the imports under consideration

Do you have any evidence of the prices being practised by imports of the product in question (e.g. price lists)? If so, please provide details and enclose copies of any relevant documents.

D.3 Effect of measures upon your industry

What will happen to your business if measures are imposed on imports of the product in question from the People's Republic of China? Please explain the reasons for your view.

What will happen to your business and if measures are not imposed on imports of the product in question from the People's Republic of China? Please explain the reasons for your view.

D.4 Effect of measures upon other interested parties

In addition, what will be, in your view, the effects of safeguard measures on interested parties with regard to the above mentioned factors?

(The interested parties concerned by this proceeding include the following: upstream industries, suppliers of raw materials and machinery producers, importers, traders, retailers and any intermediary parties, end-users and consumers.)

D.5 Causality

Please indicate any other factors, beside imports from the People's Republic of China, which might have caused harmed your company over the last 15 months and more particularly in Q1 2005, e.g.: volume and prices of imports from other

countries, contraction in demand or changes in patterns of consumption, restrictive trade practices of, and competition between, third country and Community producers, developments in technology and the export performance and the productivity of the Community. Please add any other factors which are important in your view.

ANNEX II - version open for consultation by interested parties

When completing the questionnaire version open for consultation by interested parties you should bear in mind that all exporters, importers and other Community producers will have access to it. The reply open for consultation should be sufficiently detailed to permit a reasonable understanding of the substance of the information submitted in confidence.

In order to assist you in completing the questionnaire version open for consultation by interested parties, we advise you to act as follows:

1. Use the completed "limited" questionnaire response as a basis. Identify all information in the limited response which you consider is not limited and **copy** it to the file for consultation.
2. After this, check once more whether the information you did not copy to the file for consultation is really limited. If you still consider it to be confidential, you must give the reasons why, item by item and summarise the limited information in a form which is adequate for the consultation by interested parties. If, in exceptional circumstances, it is not possible to even summarise the limited information, give reasons why summarisation is not possible.

Examples on how to summarise "limited" information.

- ◆ When the information concerns numbers for various years you can use indices.

Example of limited information:

2001	2002	2003
20.000 EUR	30.000 EUR	40.000 EUR

The summary open for consultation by interested parties could be as follows:

2001	2002	2003
=100	150	200

- ◆ When the information concerns a single number you can apply a % change to it .

Example of limited figure:

"My cost of production is EUR 300 per tonne."

The summary for consultation could be as follows:

"My cost of production is EUR 330 per tonne" (+ footnote saying: "actual numbers have been amended by a margin of maximum \pm 10% to protect confidentiality").

- ◆ When the limited information concerns text you can either summarise it or eliminate the names of parties by indicating their function.

Example: TRADING COMPANY Ltd told me that the prices of imports were 20% lower.

Summary for consultation by interested parties: **[one of my customers]** told me that the prices of imports were 20% lower.
